

THE MANTHORPE GROUP

MANTHORPE
ENGINEERING
L I M I T E D

MANTHORPE ENGINEERING Ltd, Fabrication Machinery equipment list.

Shearing	One Pullmax 4m x 16mm Guillotine under CNC control.
Sawing	One off, 24" Band saw
Thermal Cutting	Pac 10 Plasma Arc cutting of non-ferrous materials.
Forming	Pullmax 400 ton CNC 6 axis press brake complete with full range of tooling and 4m capacity.
Drilling	A range of radial arm and multi-spindle drilling.
Welding	Welding to M.I.G, T.I.G, M.M.A, and Air Arc. Welding machines under calibration control
Handling	Internal lifting up to 20 Tonnes on 2 overhead cranes Fork Lift handling up to 5 Tonnes.
Testing	Functional and Pressure testing to suit requirements
Qualifications	QA to ISO 9001 and Rolls-Royce GS3003. Weld procedures qualified to BS EN 287 and ASME IX Welders qualified to BS EN 288 and ASME IX.
NDE	Liquid Penetrant and Magnetic Particle Inspection to ASNT II, and other processes by arrangement.
Machining	Please request our list, we have a complete range of equipment from 2mm to 3.0 metre diameter CNC multi axis machines.
